

MAIKO NYAKUNDI BIVON

ICT / IT SUPPORT PROFESSIONAL

0742034927 | bivonmichael@gmail.com

PROFESSIONAL PROFILE

Motivated Networks and Communication graduate with practical experience in ICT support, computer hardware and software troubleshooting, LAN support, networking, printer support, Windows installation, and basic systems maintenance. Comfortable diagnosing technical problems, supporting users, maintaining ICT equipment, and learning new technologies. Seeking an ICT/IT Support role where I can apply my technical skills while continuing to grow professionally.

WORK EXPERIENCE

ICT Support / ICT Office – Parliament Premises

Current Role | Kenya

- Provide day-to-day technical support for users and ICT equipment.
- Assist with troubleshooting computer hardware, software, connectivity, and peripheral issues.
- Support basic network and systems-related tasks within the ICT environment.
- Assist users with computer-related problems and escalate complex issues when necessary.
- Help maintain ICT equipment and ensure systems remain operational.

ICT Attachment – Kapsabet Referral Hospital

May 2025 – August 2025 | Kenya

- Troubleshoot LAN and computer connectivity issues.
- Replaced and terminated RJ45 connectors and assisted with network cabling.
- Performed server rack and ICT equipment maintenance.
- Troubleshoot and supported printers and other computer peripherals.
- Installed and configured Windows operating systems.
- Provided technical assistance to staff using hospital ICT systems.
- Worked with systems and connectivity infrastructure including Medboss and Starlink environments.

EDUCATION

Bachelor's Degree in Networks and Communication

University of Eastern Africa, Baraton

Relevant areas: Computer Networks, Routing and Switching, Network Administration, Cisco technologies, Systems Support, Data Communication, and Information Technology.

TECHNICAL SKILLS

- IT support and end-user troubleshooting
- Computer hardware and software troubleshooting
- Windows installation and configuration
- LAN setup and troubleshooting
- RJ45 termination and network cabling
- Basic network administration
- TCP/IP and IP subnetting
- Cisco Packet Tracer
- VLAN configuration and routing concepts
- DHCP, OSPF and BGP fundamentals
- Printer and peripheral troubleshooting
- Server rack and ICT equipment maintenance
- VirtualBox and Ubuntu/Linux fundamentals
- Wireshark and network troubleshooting concepts
- Basic monitoring concepts including Zabbix and PRTG

PERSONAL SKILLS

- Problem solving and analytical thinking
- Willingness to learn and adapt
- Attention to detail
- Teamwork and collaboration
- User support and communication
- Ability to work under pressure
- Professional and responsible work attitude

ACADEMIC / TECHNICAL PROJECTS & KNOWLEDGE

- Cisco networking simulations using Packet Tracer.
- Routing, switching, VLANs and IP subnetting practical exercises.
- Linux/Ubuntu administration and VirtualBox virtualization exercises.
- Network monitoring and traffic-analysis concepts using tools such as Wireshark, NetFlow and IPFIX.

LANGUAGES

- English – Good working proficiency
- Kiswahili – Fluent
